## Mobile Platform

Movilizer is a leading Global Mobile Enterprise Application Platform (MEAP), a Honeywell company that empowers businesses to realise their digital transformation and deploy agile strategies.

The simple intuitive solution for rapid barcode scanning and data entry with a market leading interface that allows quick uptake in the warehouse for fast results.

The Config Team are specialists in mobile SAP solutions and offer tried and tested systems, and we choose to develop solutions using the Movilizer platform as it delivers all the functionality needed for a fully integrated, end-to-end warehouse logistics solution, including 3PLs in a way that is easy for the operator to use.
